

International Telecommunication Union

MetMUNC XLVIII

Welcome Letter

Chairpeople: Dara Neumann & Riley Gillman

Honorable Delegates,

Welcome to MetMUNC XLVIII. Our names are Dara Neumann and Riley Gillman, and we are your chairs for the International Telecommunication Union (ITU). The ITU is a specialized agency of the UN Economic and Social Council. Headquartered in Geneva, Switzerland, the ITU is responsible for matters concerning information and communication technologies. Founded in 1865, the ITU predates the United Nations and is the oldest global international organization. The ITU is involved in developing telecommunication infrastructure and coordinating technological standards.

My name is Dara Neumann, and I'm currently a sophomore at POBJFK. Aside from being a chair and Tech Coordinator in MetMUNC, I am the Head of CAD (Computer Aided Design) in our school's robotics team. I work at the Coder School and I volunteer at the Cradle of Aviation. I have a passion for all sciences, especially neuroscience, and I'm hoping to become a neurosurgeon in the future. I'm looking forward to meeting all of you and seeing how you represent the views of each of your countries.

My name is Riley Gillman and I am a senior here at POBJFK. This is my third year in MUN and my first time chairing! Outside of MUN I have interests in my school's robotics team and I am the captain of the track team. I am interested in science, especially physics, and computer science. I plan to major in computer science in college and want to be the first person to perfect quantum processing. I can't wait to see the bright solutions you will come up with during debate that ultimately improve the world.

During committee, we will be discussing **Technological/Internet Regulation**, **Artificial Intelligence**, and **Inequality of Technological Advancement**. Please research your country's role in each topic, and be ready to engage in a diplomatic and respectful debate with your fellow delegates. Be sure to represent your country's views and be open to hearing the views of other countries. We look forward to seeing you at MetMUNC XLVIII.

Your Honorable Chairs
